DEFINITIONS OF TERMS

Program Types

- **Rapid Re-Housing** provides time-limited rental assistance and housing stabilization services to move homeless people into permanent housing as quickly as possible.
 - Programs include ESG-funded rapid re-housing programs, Supportive Services for Veteran Families (SSVF) rapid re-housing programs, and other rapid re-housing provider programs.
 - CoC-funded transitional housing programs that are renewing in the 2012 CoC competition AND are being reclassified as rapid re-housing programs should be counted on this form as rapid re-housing programs.
 - CoC-funded transitional housing programs that use a rapid re-housing model, but that are NOT renewing in the 2012 CoC competition, should be counted on the “Sheltered Count of Homeless Persons” form as a transitional housing program using a rapid re-housing model.
 - For all rapid re-housing programs, only report the beds **in use** on the night of the count. This means the beds are occupied by participants who are in permanent housing and who are actively enrolled in the program on the night of the count.
- **Permanent Supportive Housing** is permanent housing and supportive services for homeless persons with disabilities.
 - Programs include publicly and privately funded permanent supportive housing programs, SHP-Permanent Housing, Shelter Plus Care, HUD-VASH (Veterans Affairs Supportive Housing)

Beds and Units

- **Beds for Single Adults** are designated for single adults or adult couples without dependent children.
- **Beds for Families** are designated for households of adults and dependent children.
- **Beds for Households of Only Children** are designated for households in which everyone is under 18 (unaccompanied children, adolescent parents and their children, adolescent siblings, etc.)
 - If beds are not designated exclusively for a particular type of household, record the beds according to how they were used on the night of the PIT. If the program is not at full capacity on the night of the PIT, extrapolate the distribution based on the pro-rated distribution of the beds that were filled that night.
- **Units for Families** are separate rooms, units, or buildings designated to each house one family.
- **Beds Targeted to Chronically Homeless Persons** are beds for which chronically homeless participants have priority over other participants.

Households

- **Households with Dependent Children** include households in which at least one adult and one child are present on the night of the count.
- **Households without Dependent Children** include single adults and adult couples without children. It also includes adults who have children, but whose children are not present with them on the night of the count.
- **Households of Only Children** are households in which every person is under the age of 18. This includes unaccompanied children under 18, adolescent parents and their children, adolescent siblings, or other household configurations composed only of children.

Chronically Homeless

In 2011, the definition of chronically homeless was expanded to include both individuals and families.

- Definition: an unaccompanied homeless individual (18 or older) with a disabling condition **OR** a family with at least one adult member (18 or older) who has a disabling condition who has either been continuously homeless for a year or more **OR** has had at least four episodes of homelessness in the past three years.
 - The disabling condition can include mental illness, chronic substance abuse, HIV/AIDS, physical disability, or developmental disability.
