Discussion on committee assignments and reports – Dick stressed to the committee that the Regional Committee subcommittees need to be functioning. The fundraising committee definitely needs to be operational and raising money to help with the future homeless shelter. CHIN (Carolina Homeless Information Network) will be going through some changes so it's important to get that committee up and running. Faye mentioned that she has urged agencies such as Daymark to consider using the CHIN system. CHIN will be changing to MICAH and all training will be provided online. DeShanna mentioned how well the CHIN works in Winston Salem. The committee asked DeShanna to provide more information on how well things are working in Winston Salem and if she can find someone to present to use. DeShanna will check with her supervisor. The CHIN system used to have a cost associated with us, but is currently offered for free. The only agencies currently using CHIN are DSS, RHA, and RCHH.

Mrs. Byrd is looking for advice and guidance as to how to go about doing this. The committee recommended that she call the BoS to seek information and funding opportunities as well as talk further with Faye for advice.
- Faye let the committee know that the Coordinated Assessment has been completed and that the MOUs have been sent in and are being reviewed by the BoS.
